Business Update — CCI Group

CCI Group Wins “Best Integrated Supply Chain Company” Award at ELSC Conclave 2025

Mumbai, Jan 27, 2025 – CCI Group, India’s leading 4PL Integrated Logistics and Supply Chain Company, announces that it has been honored with the “Best Integrated Supply Chain Company” award at the prestigious 16th ELSC Conclave 2025 award event held recently at JW Marriott in Mumbai. The award recognizes CCI Group’s outstanding achievements in seamlessly integrating various facets of the supply chain, leveraging innovative technologies, and maintaining a commitment to excellence across its operations.

From left to right: Harish Bhatia, KamiKaze B2B Media, Arun Rao, Sr. VP - Integrated Business Growth (CCI Supply Chain Private Limited), Madhukar Singh, National Officer (CCI Logistics Limited), Yash Sharma, Executive Director (CCI Group), Rita Verma, National Sales Head (CCI Supply Chain Private Limited)

The ELSC Conclave is a premier event that brings together C-suite executives and thought leaders in the supply chain industry. It celebrated CCI Group’s dedication for improving supply chain efficiency, sustainability, and customer satisfaction. This recognition further reinforces the company’s role as a key player in transforming the global supply chain landscape.

“We are delighted to receive this prestigious award at the ELSC Conclave 2025,” said Naresh Sharma, Managing Director, CCI Group. “This award is a testament to the hard work, innovation, and collaboration of our entire team, and our unwavering commitment to delivering exceptional value to our clients. It motivates us to continue enhancing our processes and exploring new ways to drive success across the global supply chain ecosystem.”

Business Update — CCI Group

CCI Group's success in earning this recognition further solidifies its position as an industry leader in integrated supply chain solutions. By continuously adapting to emerging technologies and evolving market needs, we remain committed to driving innovation and delivering world-class logistics solutions that meet the challenges of a dynamic global marketplace.

About CCI Group

CCI Group is India's leading 4PL Integrated Logistics and Supply Chain company with a rich legacy of 48 years. The company boasts a pan-India presence across 48 cities, managing over 15 million square feet of owned warehouses and logistics parks, supported by a dynamic workforce of over 1,000+ people. CCI has established itself as a prominent player in India's logistics sector and also operates globally, with a network spanning over 105 countries. It also has a significant presence at more than 20 airports and seaports across India.

Serving more than 1000 clients across diverse industries, including Chemical, E-commerce, Retail, FMCG, Healthcare, Automotive, and more, CCI excels in providing seamless supply chain solutions. The company's operations encompass transportation, last-mile delivery, Customs clearance, international freight forwarding, warehousing, and in-plant logistics.

With an attached fleet of over 1,200 vehicles running dedicatedly and a focus on sustainable transport, CCI is committed to innovation, efficiency, and delivering tailored logistics solutions to meet client needs.

Change Management for Hyperion ARCS Netting

Overview of the To Be Process

CNC will share required **SOA format** in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, **EPM** will automatically process the file & then Records will match with counter party books. **NC will share required SOA format in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, EPM will automatically process the file & then Records will match with counter party books.**

Data would be processed as and when data file (SOA template) would be placed in the shared folder for initial upload and changes. Post processing, matching report will be shared

We are currently planning to have 4 pre reporting and 1 final reporting to be executed during One ARCS Hyperion Netting cycle. The number of pre-cycles can be increased or decreased by CNC as and when required.

Basis matching done in **EPM** system, Netting Participants will receive **MATCHED**, **SUGGESTED MATCH** and **UNMATCHED** report at invoice level during all the netting cycles (Pre & Final run)

Basis Pre Reports shared by CNC, Netting Participant can perform their Follow-up with counter parties on their **SUGGESTED MATCH** and **UNMATCHED** transactions, They can add approved AP invoices in **SOA template** & follow-up with counter parties for their unapproved AR invoices as mentioned in unmatched report. For Next Pre-run or Final Run, Netting participants will have to share their Revised **SOA template** CNC and the same will be uploaded in Replace Mode for the participant's complete data. If CNC doesn't receive **Revised** version of your SOA then last received version in that month Netting will be considered for matching.

On Final day of the run, Final Matched Transactions and Final Netting Settlement report will be shared by CNC via e-mail.

Netting Participants will book manual netting vouchers in their ERP as being done earlier, based on the Final Netting Settlement report shared by CNC. Settlement should be done "To / By" CNC as per amount mentioned in Settlement Report & Dates mentioned in Netting Calendar.

Change Management for Hyperion ARCS Netting

HYPERION BENEFITS

- Automated & Transparent Invoice approval process
- Dispute resolution at invoice level
- Proper Audit trail at invoice level for Balance confirmation
- Auto matching/ confirmation & auto Netting Journal booking
- No more holding back of approved invoices

FAQ's

Q1. How would I know if I made a mistake in the manual Excel upload template?

Ans: In Manual Excel SOA Template we have given Instructions on “How to fill Excel SOA” Users can read those Instructions carefully before updating SOA. Also we have develop a macro within SOA template which can validate SOA for all possible human errors and provide error log to users which enable them to correct their mistakes.

Q2. Do I need to control use of any special characters in the manual Excel upload template?

Ans: Yes, You can not use special characters like comma (,) & semi colon (;) anywhere in excel SOA template. Also you should not keep any single cell blank if you have use any invoice line. If there is no information to provide then you can use “NA”

Q3. What if the payable is not booked at all or payable is booked wrongly?

Ans: If any payable invoice is Approved but you have not mentioned in your initial SOA then you can add that invoice in your Revised SOA & share that with CNC in order to match that invoice in next Pre/Final Run. If you have booked any

Receivable or Payable invoice incorrectly then you need to correct that in your ERP system as well as in Revised SOA & share correct data with CNC in order to match those invoices in next Pre/Final Run

Q4. Will “Data Confidentiality” will be maintained during this Netting process?

Ans: Yes, 100% This Hyperion Netting Activity will be carried out by 3rd party vendor & Your Receivable & Payable data will not be shared within Network. In Pre & Final Reporting as well you will receive only those transactions data which is either in your books & in your counterparty books (which related to your office only) Hence Pls. be 100% assure about “Data Confidentiality”
