Business Update — RIF

***Delivering Excellence
Every time Everywhere***

Strengthening our connections

Recently, Wayne Gibson and Dico Verbeek proudly represented RIF Group at the @HCL Network AGM in Prague - an event that brings together some of the most dynamic and collaborative freight forwarders from around the world.

We're delighted to share that RIF Group has been recognised with two awards at this year's meeting:

🏆 **Best Network Agent in Accounts Settlements 2024**

🏆 **Most Participating Network Partner 2025**

These awards reflect our dedication to building strong relationships across the network and delivering dependable service every time.

It's fantastic to connect face-to-face with our global partners and continue strengthening the bonds that move business forward.

Business Update — RIF

***New & Improved China Sea Import Service: Express Freight China******Available Across the UK,
Netherlands and into Europe***

We're excited to announce updates to one of RIF Group's flagship offerings - our China LCL import service: Express Freight China. Already trusted by the majority of our clients, this service just got even better.

***What's New?***

Weekly, guaranteed schedules from all Chinese ports
Longer rate validity for budget stability
Express delivery: 48-72 hours post customs clearance
End-to-end control via RIF Group's digital platform
Dedicated account handlers from booking to delivery

We've built this service to offer maximum flexibility, improved forecasting, and total shipment visibility. If you're shipping from China, there's never been a better time to streamline your supply chain with RIF Group.

Business Update — ASIAPAC TURKEY

Allcargo Turkey Ranked 5th in IATA Turkey for June!

We are proud to announce that Allcargo Turkey has achieved a remarkable milestone. According to IATA's official ranking for June, we have secured 5th place among all air freight forwarders in Turkey.

This accomplishment is a testament to the dedication of our team, the strength of our global partnerships, and our unwavering commitment to providing efficient, reliable, and customer-focused logistics solutions.

This achievement comes during a challenging period for the industry, with the overall Turkish airfreight market experiencing a noticeable downturn. Despite the market contraction, Allcargo Turkey demonstrated remarkable resilience and operational excellence, maintaining a leading position with **export volumes exceeding 500 tons** in June alone.

According to the data, Allcargo Turkey now commands **3.36% of the national airfreight market share**, a testament to its consistent performance, client trust, and strategic execution.

We sincerely thank all our international partners for their trust and cooperation, which have been vital to our success. Together, we will continue to break new ground and set higher standards in the logistics industry.

Allcargo Turkey – Moving Forward, Beyond Borders.

Business Update — Windlog

Windlog has officially arrived in Itajaí

Windlog has just inaugurated another branch, now located in one of Brazil's largest logistics and port hubs.

With this new unit, we reinforce our commitment to being ever closer to our clients, delivering agile, strategic, and personalized service.

The Southern region gains even more strength with a specialized team and tailor-made logistics solutions to meet both local and international demands efficiently and with high quality.

We keep moving forward!

Business Update — International Moving Cargo

Argentina's New Trade and Tariff Reforms

Hello team,

Just a quick heads-up on some big changes in Argentina. The country has rolled out some new tariff and trade reforms that are going to directly affect logistics and foreign trade.

Here's the rundown on the key changes:

Tariff Reductions:

Apparel and footwear:

- Tariffs have dropped from 35% to 20%.
- Fabrics: Down from 26% to 18%.
- Yarns: Reduced to a range of 12% to 16%.

Industrial capital goods:

- Tariffs are now 12.6%, down from 20-35%.

Electronics and Mobile Phones:

- Cell phones: Tariffs are now 8%, a significant drop from 16%. They're set to be completely eliminated in 2026.
- Internal taxes on cell phones, TVs, and air conditioners have been cut from 19% to 9.5%.
- Video game consoles: The rate has been lowered from 35% to 20%.

Electric and Hybrid Vehicles:

- The first 50,000 units per year are now tariff-free.
- For high-end models, the rate has been cut from 35% to 18%.

Trade Facilitation:

- A special 7.5% tax has been eliminated.
- Licenses and technical requirements have been simplified, which should make things a bit smoother.

These changes are significant for freight forwarders, they represent new opportunities to reduce costs and offer faster, more efficient services to clients. Any inquiries, please, reach us to us, we would be delighted to partner with you in developing new markets.

HCL Network Update — Out going Agent

Dear All,

We would like to announce the below changes/update in the Network;

Exit :-

- ♦ ECULINE SAUDI ARABIA LLC
- ♦ PREMIERE LOGISTICS LTD, Taiwan

Change Management for Hyperion ARCS Netting**Overview of the To Be Process**

CNC will share required **SOA format** in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, **EPM** will automatically process the file & then Records will match with counter party books. **CNC will share required SOA format in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, EPM will automatically process the file & then Records will match with counter party books.**

Data would be processed as and when data file (SOA template) would be placed in the shared folder for initial upload and changes. Post processing, matching report will be shared

We are currently planning to have 4 pre reporting and 1 final reporting to be executed during One ARCS Hyperion Netting cycle. The number of pre-cycles can be increased or decreased by CNC as and when required.

Basis matching done in **EPM** system, Netting Participants will receive **MATCHED**, **SUGGESTED MATCH** and **UNMATCHED** report at invoice level during all the netting cycles (Pre & Final run)

Basis Pre Reports shared by CNC, Netting Participant can perform their Follow-up with counter parties on their **SUGGESTED MATCH** and **UNMATCHED** transactions, They can add approved AP invoices in **SOA template** & follow-up with counter parties for their unapproved AR invoices as mentioned in unmatched report. For Next Pre-run or Final Run, Netting participants will have to share their Revised **SOA template** CNC and the same will be uploaded in Replace Mode for the participant's complete data. If CNC doesn't receive **Revised** version of your SOA then last received version in that month Netting will be considered for matching.

On Final day of the run, Final Matched Transactions and Final Netting Settlement report will be shared by CNC via e-mail.

Netting Participants will book manual netting vouchers in their ERP as being done earlier, based on the Final Netting Settlement report shared by CNC. Settlement should be done "To / By" CNC as per amount mentioned in Settlement Report & Dates mentioned in Netting Calendar.

Change Management for Hyperion ARCS Netting

HYPERION BENEFITS

- Automated & Transparent Invoice approval process
- Dispute resolution at invoice level
- Proper Audit trail at invoice level for Balance confirmation
- Auto matching/ confirmation & auto Netting Journal booking
- No more holding back of approved invoices

FAQ's

Q1. How would I know if I made a mistake in the manual Excel upload template?

Ans: In Manual Excel SOA Template we have given Instructions on “How to fill Excel SOA” Users can read those Instructions carefully before updating SOA. Also we have develop a macro within SOA template which can validate SOA for all possible human errors and provide error log to users which enable them to correct their mistakes.

Q2. Do I need to control use of any special characters in the manual Excel upload template?

Ans: Yes, You can not use special characters like comma (,) & semi colon (;) anywhere in excel SOA template. Also you should not keep any single cell blank if you have use any invoice line. If there is no information to provide then you can use “NA”

Q3. What if the payable is not booked at all or payable is booked wrongly?

Ans: If any payable invoice is Approved but you have not mentioned in your initial SOA then you can add that invoice in your Revised SOA & share that with CNC in order to match that invoice in next Pre/Final Run. If you have booked any

Receivable or Payable invoice incorrectly then you need to correct that in your ERP system as well as in Revised SOA & share correct data with CNC in order to match those invoices in next Pre/Final Run

Q4. Will “Data Confidentiality” will be maintained during this Netting process?

Ans: Yes, 100% This Hyperion Netting Activity will be carried out by 3rd party vendor & Your Receivable & Payable data will not be shared within Network. In Pre & Final Reporting as well you will receive only those transactions data which is either in your books & in your counterparty books (which related to your office only) Hence Pls. be 100% assure about “Data Confidentiality”
