Business Update — Premiere Logistics

We are pleased to share that Mr. Cristiano Bazzan, Managing Director of BFG Italy at HCL, recently visited the Premiere Logistics Taiwan office. During this visit, Mr. Alex Liu flew in from Shanghai to meet with Mr. Bazzan. The two engaged in productive discussions, exchanging valuable insights on strategies to further develop the market between Italy and Asia.

It was an excellent opportunity to strengthen collaboration and explore new avenues for growth. We look forward to fostering these initiatives and driving mutual success in the region.

Statutory Update

KENYA SHIPMENT ADVISORY
CERTIFICATE OF ORIGIN IS MANDATORY

September 25, 2025

Dear Valued HCL Partners,

We would like to bring to your attention an important regulatory requirement affecting all shipments destined for Kenya. (LCL / FCL and Air shipments)

Effective October 1st, 2025, all cargo arriving in Kenya must be accompanied by a valid Certificate of Origin (COO). This directive aligns with the guidelines established by the Kenya Revenue Authority (KRA) and aims to enhance customs compliance and streamline trade processes.

Key Points to Note:

- **Mandatory Requirement:** A **Certificate of Origin** is now mandatory for customs clearance of all in-bound shipments to Kenya.
- **Consequences of Non-Compliance:** Failure to provide a valid COO may result in:
 - ✦ Delays in customs clearance
 - ✦ Additional penalties or demurrage charges
 - ✦ Possible rejection or return of cargo on the shippers' expense
 - ✦ Goods being sold by means of a public Auction

Action Required:

All ECU Worldwide origin offices and agents are requested to:

1. Inform shippers immediately about this requirement
2. Ensure all export documentation includes a valid COO for any cargo consigned to Kenya
3. Inform shippers to coordinate with local chambers of commerce or relevant authorities to secure the COO promptly

We urge your immediate attention and cooperation to ensure continued smooth operations and prevent any disruptions or penalties to our customers.

For further clarification or assistance, please do not hesitate to contact us.

Change Management for Hyperion ARCS Netting**Overview of the To Be Process**

CNC will share required **SOA format** in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, **EPM** will automatically process the file & then Records will match with counter party books. **NC will share required SOA format in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, EPM will automatically process the file & then Records will match with counter party books.**

Data would be processed as and when data file (SOA template) would be placed in the shared folder for initial upload and changes. Post processing, matching report will be shared

We are currently planning to have 4 pre reporting and 1 final reporting to be executed during One ARCS Hyperion Netting cycle. The number of pre-cycles can be increased or decreased by CNC as and when required.

Basis matching done in **EPM** system, Netting Participants will receive **MATCHED**, **SUGGESTED MATCH** and **UNMATCHED** report at invoice level during all the netting cycles (Pre & Final run)

Basis Pre Reports shared by CNC, Netting Participant can perform their Follow-up with counter parties on their **SUGGESTED MATCH** and **UNMATCHED** transactions, They can add approved AP invoices in **SOA template** & follow-up with counter parties for their unapproved AR invoices as mentioned in unmatched report. For Next Pre-run or Final Run, Netting participants will have to share their Revised **SOA template** CNC and the same will be uploaded in Replace Mode for the participant's complete data. If CNC doesn't receive **Revised** version of your SOA then last received version in that month Netting will be considered for matching.

On Final day of the run, Final Matched Transactions and Final Netting Settlement report will be shared by CNC via e-mail.

Netting Participants will book manual netting vouchers in their ERP as being done earlier, based on the Final Netting Settlement report shared by CNC. Settlement should be done "To / By" CNC as per amount mentioned in Settlement Report & Dates mentioned in Netting Calendar.
