Message from HCL

Dear Members,

Season's Greetings!

As we step into the second half of the year, it is heartening to witness encouraging developments on the global stage. The recent ceasefire in West Asia has renewed hope for lasting peace, bringing with it a sense of optimism for businesses and communities alike. For the logistics industry, the impact is already becoming visible. Fuel prices have begun to soften, airlines are gradually restoring suspended routes, and supply chain confidence is improving. Above all, the easing of geopolitical uncertainty offers hope for greater stability in global trade. Let us sincerely wish that these positive developments continue.

Adding to the excitement of this season is the **FIFA World Cup 2026**, one of the world's greatest sporting celebrations and second only to the Summer Olympics in its global reach. For the first time, 48 nations are competing across North America for football's most prestigious prize. The tournament has already reminded us that determination often triumphs over reputation, with traditional powerhouses such as Germany and the Netherlands making early exits. As always, football continues to unite people across borders, cultures and languages—values that resonate strongly with our own global network. May the best team lift the trophy.

Turning now to HCL Logistics Network, I am pleased to share a few important updates.

As discussed during our Executive Committee meeting in Manila, we have welcomed **Mr. De-Leon Van Rooyen of South Africa** as our newest Executive Committee member. Our current ExCom now comprises:

1. Mr. Tom Kalabilikis – Australia
2. Mr. Wayne Gibson – United Kingdom
3. Mr. Alex Liu – China
4. Mr. Mauricio Welsh – Brazil
5. Mr. De-Leon Van Rooyen – South Africa

On behalf of the entire HCL family, I extend my sincere appreciation to all our ExCom members. Their experience, commitment and strategic guidance continue to play a vital role in shaping the future of our network and ensuring that we consistently deliver greater value to every member.

June has been another active month for membership development. We welcomed several new members while a few memberships concluded. As of today, **HCL Logistics Network proudly comprises 129 members across 100 countries**, further strengthening our global reach and capabilities.

Please refer to the updated membership directory published in this newsletter for the latest details.

Looking ahead, our team is working on several exciting initiatives designed to generate greater business opportunities, strengthen member engagement, and further enhance the value of HCL membership. We look forward to sharing these with you in the coming months.

Message from HCL

Thank you once again for your continued trust, support and active participation in HCL Logistics Network. Together, we are building not just a logistics network, but a community founded on collaboration, friendship and sustainable business growth.

Until next month, enjoy the excitement of the FIFA World Cup, celebrate the spirit of global unity, and continue creating greater logistics opportunities.

Warm regards,

Warm regards,
Subrata Mukhopadhyay
HCL Logistics Network

HCL New Member — Crater, Nepal

crater

STACK. SHIP. DELIVER.

A new company. A familiar standard.

We're young as a brand, but our team isn't. **crater** was started by professionals who've spent years inside global freight, customs and supply-chain operations — and who saw room for something sharper.

That means modern tooling and clear communication, but also the fundamentals: reliable rates, clean documentation, and operators who understand what your shipment actually means to your business.

FOUR IDEAS WE WON'T COMPROMISE ON.

- 01  **TRUST BEFORE TRANSACTIONS**
We'd rather lose a quote than a relationship. Every promise is one we plan to keep.
- 02  **TRANSPARENT BY DEFAULT**
Clean rate cards, no surprise surcharges, and shared visibility into every milestone.
- 03  **OPERATORS, NOT ORDER-TAKERS**
Our team thinks like supply-chain owners — because most of us have been one.
- 04  **BUILT FOR THE LONG HAUL**
We design for partnerships measured in decades, not single shipments.

Import-led freight forwarder bringing cargo from the world to Nepal—and beyond.

We take the global expertise of legacy logistics, strip out the friction, and put it in the hands of teams who actually answer the phone.

WHAT WE DO

-  **AIR FREIGHT**
Reliable air cargo solutions for time-sensitive shipments.
-  **OCEAN FREIGHT**
FCL and LCL services with competitive rates and dependable transit.
-  **CUSTOMS CLEARANCE**
Smooth handling of documentation and regulatory compliance.
-  **INLAND TRANSPORTATION**
Efficient local pickup and delivery across Nepal.
-  **PROJECT & SPECIAL CARGO**
Tailored solutions for oversized, heavy and complex shipments.

 **Clear communication. Real people. Every time.**
We answer the phone.

GET IN TOUCH

Let's move your freight the right way.

HCL New Member — Crater, Nepal

A New Company. A Familiar Standard.

We're excited to introduce crater, a fresh logistics company based in Kathmandu, Nepal and recently welcomed into the HCL network.

Launched in 2026, crater was built by professionals who've spent years inside freight forwarding, customs, pricing, and supply-chain operations. We created crater with a simple idea: combine old-school reliability with new-school speed.

Our current focus is primarily air freight, supporting cargo movement from Europe and China into Nepal, while also serving worldwide trade lanes through trusted partnerships.

At crater, we believe logistics should be responsive, transparent, and straightforward, with clean documentation, dependable execution, and teams that actually answer the phone.

Why crater?

Because we're new as a company not new to freight.

We're grateful to join the HCL family and excited for the opportunity to build long-term partnerships, create new business opportunities, and grow together with fellow members across the network.

Business Update — RIF**Celebrating 10 Years with Josh Brown**

This month, RIF Worldwide is proud to celebrate an important milestone as Josh Brown marks ten years with the business.

Over the past decade, Josh has played a key role in the growth and development of RIF Worldwide. In his current role as Product & Procurement Director, he has been instrumental in strengthening strategic partnerships, developing new services and expanding RIF's global network.

Josh's commitment, industry expertise and dedication have made him an invaluable member of the team and a significant contributor to the ongoing success of the business.

Congratulations, Josh, on reaching this fantastic milestone, and thank you for your contribution over the past ten years. We look forward to many more successes together.

Business Update — Jan Direct Ltd, Bangladesh

Following updates for your ref:

Chittagong Port update:

- ð On an average Chittagong port is experiencing 00 – 01 day berthing congestion right now for both gearless and geared vessels.

Patenga Container Terminal (PCT) update:

- ð 14 Rubber-Tyred Gantry cranes (RTGs) had arrived and commissioned at RSGT Bangladesh last year.

Dhaka Kamalapur ICD (BDDAC) update:

- ð Dwelling time for Dhaka ICD bound import is ≥ 3 to 4 Days/20' & ≥ 3 to 4 Days/40'.
- ð Overweight (GW>25 tons/20ST) import laden container suffering with most inordinate delays (7+ days/20ST).
- ð Number of train departure from CGP to DAC is 02 while maintaining tariff and capacity unchanged due to locomotive shortage.

Pangaon Container Terminal (BDPGN) update:

- ð Dwelling time for Pangaon bound import increased to 1 week.
- ð Considering poor performance of BDPGN, CPA has requested all MLOs to utilize BDPGN by carrying more BDPGN bound cargo.

Berthing Congestion and Vessel update:

- ð Average (GD & GL) berthing delays : **00 – 01 Day**
 - o GCB (for Geared vessels) is 00 – 01 Day and
 - o CCT/NCT (for Gearless vessel) is 00 – 01 Day

Chittagong Port CY update:

- ð Yard Occupancy : 79.32%

Weather update:

Signal for Maritime ports:- No.

Synoptic Situation: The Trough persists from Gangetic West Bengal to Northwest Bay. Monsoon is active over the northern part of the country and fairly active elsewhere over the country and moderate elsewhere over North Bay.

Rainfall: Light to moderate rain/thunder showers accompanied by temporary gusty wind and lightning flashes is likely to occur at many places over Rangpur, Mymensingh, Barishal, Chattogram & Sylhet divisions and at a few places over Rajshahi, Dhaka & Khulna divisions with moderately heavy to very heavy falls at places over the country.

Regards,

Ashiqur Rahman <ashique@jandirekt.com>

Change Management for Hyperion ARCS Netting

Overview of the To Be Process

CNC will share required **SOA format** in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, **EPM** will automatically process the file & then Records will match with counter party books. **NC will share required SOA format in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, EPM will automatically process the file & then Records will match with counter party books.**

Data would be processed as and when data file (SOA template) would be placed in the shared folder for initial upload and changes. Post processing, matching report will be shared

We are currently planning to have 4 pre reporting and 1 final reporting to be executed during One ARCS Hyperion Netting cycle. The number of pre-cycles can be increased or decreased by CNC as and when required.

Basis matching done in **EPM** system, Netting Participants will receive **MATCHED**, **SUGGESTED MATCH** and **UNMATCHED** report at invoice level during all the netting cycles (Pre & Final run)

Basis Pre Reports shared by CNC, Netting Participant can perform their Follow-up with counter parties on their **SUGGESTED MATCH** and **UNMATCHED** transactions, They can add approved AP invoices in **SOA template** & follow-up with counter parties for their unapproved AR invoices as mentioned in unmatched report. For Next Pre-run or Final Run, Netting participants will have to share their Revised **SOA template** CNC and the same will be uploaded in Replace Mode for the participant's complete data. If CNC doesn't receive **Revised** version of your SOA then last received version in that month Netting will be considered for matching.

On Final day of the run, Final Matched Transactions and Final Netting Settlement report will be shared by CNC via e-mail.

Netting Participants will book manual netting vouchers in their ERP as being done earlier, based on the Final Netting Settlement report shared by CNC. Settlement should be done "To / By" CNC as per amount mentioned in Settlement Report & Dates mentioned in Netting Calendar.

Change Management for Hyperion ARCS Netting

HYPERION BENEFITS

- Automated & Transparent Invoice approval process
- Dispute resolution at invoice level
- Proper Audit trail at invoice level for Balance confirmation
- Auto matching/ confirmation & auto Netting Journal booking
- No more holding back of approved invoices

FAQ's

Q1. How would I know if I made a mistake in the manual Excel upload template?

Ans: In Manual Excel SOA Template we have given Instructions on “How to fill Excel SOA” Users can read those Instructions carefully before updating SOA. Also we have develop a macro within SOA template which can validate SOA for all possible human errors and provide error log to users which enable them to correct their mistakes.

Q2. Do I need to control use of any special characters in the manual Excel upload template?

Ans: Yes, You can not use special characters like comma (,) & semi colon (;) anywhere in excel SOA template. Also you should not keep any single cell blank if you have use any invoice line. If there is no information to provide then you can use “NA”

Q3. What if the payable is not booked at all or payable is booked wrongly?

Ans: If any payable invoice is Approved but you have not mentioned in your initial SOA then you can add that invoice in your Revised SOA & share that with CNC in order to match that invoice in next Pre/Final Run. If you have booked any

Receivable or Payable invoice incorrectly then you need to correct that in your ERP system as well as in Revised SOA & share correct data with CNC in order to match those invoices in next Pre/Final Run

Q4. Will “Data Confidentiality” will be maintained during this Netting process?

Ans: Yes, 100% This Hyperion Netting Activity will be carried out by 3rd party vendor & Your Receivable & Payable data will not be shared within Network. In Pre & Final Reporting as well you will receive only those transactions data which is either in your books & in your counterparty books (which related to your office only) Hence Pls. be 100% assure about “Data Confidentiality”
