

As Asiapac Turkey, we continue to make an impression about our successes in different fields as well as the Logistics. We showed up with 3 different teams and 15 colleagues in the "First Corporate Rowing" event, which was held on October 16, 2022 with the participation of 132 athletes from 15 corporate companies and more than 500 audience. In the race, which aims at the concepts of healthy life, motivation, group dynamism, competition, teamwork and belonging, all of our teams were qualified as the finalists in the group races.

In the final stage, one of our teams got the 2nd rank, while the other teams got 4th and 5th rank. Being the sole representative of the logistics industry in this first race, the Asiapac team inspired other leading names in the logistics sector with their team spirit and achievements. We are very excited to compete with industry giants such as Maersk at the 2nd Corporate Rowing event that will be held on November 20, 2022.

Also special thanks to Ipek Karamil for all of her support and leading to our rowing teams
