Business Update — Windlog

The healthcare sector

Three requirements to choose the best international logistics operator.

One of the most important steps is choosing the logistics operator to reach the expected result of delivering or receiving health products in total.

This partner company will not only be helpful to comply with the legislation of the countries in transport but must be able to help your business in the market positioning.

The opposite is also true: a thoughtless or incorrect choice can lead your business to failure since the costs of international logistics are high, and the inefficiency of transport can invalidate the entire purchase or sale. It's time to overcome this common operational problem and change the scenario!

1 – Health laws

The first analysis for choosing a logistics operator in health is determining how it works in the legal scope of compliance. There are many standards, especially in the cold chain, that need to be respected to overcome industry risk factors.

2 - The provision of services

Tip number two is about knowing the company's professionals that will provide the services. Are they qualified for the operation? After all, this industry has this criterion, that of knowledge. A good idea is to evaluate the history of the future partner, understanding their differentials and qualifications.

3 – The search for solutions

The logistics operator also needs to be interested in seeking solutions because international logistics is very dynamic and even with agreements that arise every year. The health area requires quick decision-making so companies can serve patients quickly and without losing quality.

Windlog is your partner for international logistics!

Windlog is the new partner for those who no longer want to deal with unforeseen events in the transport of medicines and vaccines or who have already seen the damage caused by products damaged by lack of management in any of the logistical stages.

Also, for those concerned with the quality and conservation of the cargo during the entire movement, regardless of the distance. As well as for companies with managers who like to monitor operations closely in real-time.

Contact Windlog's team of experts and get your questions answered.

Windlog is a certified company (ISO 9001, ISO 14001, and Authorized Economic Operator) with over 40 years of know-how in international logistics and operations on five continents.

Business Update—DSH Global

Anti-coal activists shut down ports in three states.

Protestors attached to the Blockade Australia activist group temporarily shut down three major ports in Australia for 3 consecutive days from 19th -21st June 2023.

Melbourne, Brisbane & Newcastle ports experienced lengthy delays due to road closures in and out of the ports while police responded to the unauthorised protests.

Access has since been reopened and delays rectified.

Please feel free to contact us should you require anything further.

Business Update — Premiere

PREMIERE | logistics

We are delighted to announce that our esteemed CEO, Alex, celebrating his birthday on June 21st! To make this occasion truly special, our colleagues in Shanghai have organized a fantastic birthday celebration to show our appreciation for everything he has done for the company and the team.

As we celebrate Alex's birthday, it's a perfect time to reflect on the growth and success of our company. Premiere Logistics has been a leader in the logistics industry, providing exceptional services to our clients and building a strong reputation based on reliability and efficiency. Our company's commitment to excellence has been the driving force behind our accomplishments. We take pride in our team's dedication, professionalism, and willingness to go the extra mile to meet our client's needs. Together, we have achieved significant milestones and overcome various challenges, cementing our position as a trusted logistics partner.

On this special occasion, we extend our gratitude to our boss for his invaluable leadership and guidance. His vision, passion, and unwavering support have been instrumental in our company's growth. We are privileged to have such an inspiring leader who empowers us to reach new heights.

Business Update — ECU WORLDWIDE (CANADA)

LATEST NEWS

Welcome to ECU!

We are pleased to announce **Emily Wu** has joined our ECU Worldwide (Canada) team as **Airfreight Coordinator (Canada)** effective **immediately**.

Emily comes to us from a garment distribution company running their logistics department handling their AIR and OCEAN shipments. Her insight into the need for accuracy and speed is at her forefront and showcases this in her daily communications with our network, suppliers and customers.

Emily would be pleased to assist you with any AIR inquiries you may have to and from Canada.

You may reach out to Emily through:

Email: ecuaircanada@ecuworlwide.com

Please join us in welcoming her, and wishing her success in this new role at ECU Worldwide Canada!

Business Update— ASIAPAC TURKEY

Asiapac Turkey – A Great Place to Work!

When people think of a great workplace, they often imagine an organization with generous incomes, fun office parties, and incredible benefits. While these are offered by many notable organizations, the definition of a great workplace actually goes much deeper than the benefits it offers. In fact, a great workplace is about the level of trust employees have in their leaders, the pride they take in their work, and how much they enjoy working with their teammates.

The 'Great Place to Work' platform, which is committed to building a better world by providing clear standards for what it means to be a great workplace, aims to identify the best employers in Turkey across various categories based on research and analysis conducted through employee experience surveys.

With great happiness and pride, we would like to share that we have been recognized among Turkey's best employers and a Great Place to Work in the 100-249 employee category this year. In 2022, too, we had received this recognition in the 50-99 employee category. These consecutive awards received in 2022 and 2023, demonstrate that despite our increasing workload and human resources, it is possible to create excellent workplaces for everyone by implementing sustainable policies to ensure employee satisfaction.

Sustaining trust, pride, and team spirit is a challenging goal for any organization that aspires to work on all these aspects rather than just implementing a set of advantages. However, it is an attainable goal for any organization willing to invest in these areas.

Here's to many more such success milestones!

Netting Update

SLOW PAYER

PALM SHIPPING, MALTA

Please join us in congratulating Anuja Fernandes and wishing her success in this new role.

Change Management for Hyperion ARCS Netting

Overview of the To Be Process

CNC will share required **SOA format** in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, **EPM** will automatically process the file & then Records will match with counter party books. **CNC will share required SOA format in which Netting participants will have to share their data (O/s AR+AP at invoice level). On receipt of the SOA from Netting participants, CNC will then upload these SOA a shared file folder where, EPM will automatically process the file & then Records will match with counter party books.**

Data would be processed as and when data file (SOA template) would be placed in the shared folder for initial upload and changes. Post processing, matching report will be shared

We are currently planning to have 4 pre reporting and 1 final reporting to be executed during One ARCS Hyperion Netting cycle. The number of pre-cycles can be increased or decreased by CNC as and when required.

Basis matching done in **EPM** system, Netting Participants will receive **MATCHED**, **SUGGESTED MATCH** and **UNMATCHED** report at invoice level during all the netting cycles (Pre & Final run)

Basis Pre Reports shared by CNC, Netting Participant can perform their Follow-up with counter parties on their **SUGGESTED MATCH** and **UNMATCHED** transactions, They can add approved AP invoices in **SOA template** & follow-up with counter parties for their unapproved AR invoices as mentioned in unmatched report. For Next Pre-run or Final Run, Netting participants will have to share their Revised **SOA template** CNC and the same will be uploaded in Replace Mode for the participant's complete data. If CNC doesn't receive **Revised** version of your SOA then last received version in that month Netting will be considered for matching.

On Final day of the run, Final Matched Transactions and Final Netting Settlement report will be shared by CNC via e-mail.

Netting Participants will book manual netting vouchers in their ERP as being done earlier, based on the Final Netting Settlement report shared by CNC. Settlement should be done "To / By" CNC as per amount mentioned in Settlement Report & Dates mentioned in Netting Calendar.

Change Management for Hyperion ARCS Netting

HYPERION BENEFITS

- Automated & Transparent Invoice approval process
- Dispute resolution at invoice level
- Proper Audit trail at invoice level for Balance confirmation
- Auto matching/ confirmation & auto Netting Journal booking
- No more holding back of approved invoices

FAQ's

Q1. How would I know if I made a mistake in the manual Excel upload template?

Ans: In Manual Excel SOA Template we have given Instructions on “How to fill Excel SOA” Users can read those Instructions carefully before updating SOA. Also we have develop a macro within SOA template which can validate SOA for all possible human errors and provide error log to users which enable them to correct their mistakes.

Q2. Do I need to control use of any special characters in the manual Excel upload template?

Ans: Yes, You can not use special characters like comma (,) & semi colon (;) anywhere in excel SOA template. Also you should not keep any single cell blank if you have use any invoice line. If there is no information to provide then you can use “NA”

Q3. What if the payable is not booked at all or payable is booked wrongly?

Ans: If any payable invoice is Approved but you have not mentioned in your initial SOA then you can add that invoice in your Revised SOA & share that with CNC in order to match that invoice in next Pre/Final Run. If you have booked any

Receivable or Payable invoice incorrectly then you need to correct that in your ERP system as well as in Revised SOA & share correct data with CNC in order to match those invoices in next Pre/Final Run

Q4. Will “Data Confidentiality” will be maintained during this Netting process?

Ans: Yes, 100% This Hyperion Netting Activity will be carried out by 3rd party vendor & Your Receivable & Payable data will not be shared within Network. In Pre & Final Reporting as well you will receive only those transactions data which is either in your books & in your counterparty books (which related to your office only) Hence Pls. be 100% assure about “Data Confidentiality”
